

Powerdown220 Reduces Electricity Spend by 10.44% at Brother Industries

We have recently completed an installation at Brother Industries, based in Wrexham. After undertaking a survey to understand the maximum demand and equipment on site, we established that they required a 500amp intelligent and 2x 315amp intelligent voltage optimisers. Once the survey was complete we were able to offer a savings guarantee, the results are below:

Brother Industries

- Annual Spend: £397,028
- Annual Savings: £41,468
- Percentage Savings: 10.44%
- Annual Carbon Reduction: 25,765 KG
- Project Cost: £64,849
- Payback: 18 Months
