

Powerdown220 Reduces Electricity Spend by 7.22% at Kite Glass

We have recently completed an installation at Kite Glass, based in Weybridge. After undertaking a survey to understand the maximum demand and equipment on site, we established that they required 2x 800amp intelligent voltage optimisers. Once the survey was complete we were able to offer a savings guarantee, the results are below:

Kite Glass

- Annual Spend: £467,351
- Annual Savings: £41,635
- Percentage Savings: 8.91%
- Annual Carbon Reduction: 45,277 KG
- Payback: 24 Months
